EZ Drive Locking Lug Helical System

Unlock seamless installation and boost your efficiency by pairing our revolutionary, patent-pending EZ Drive Locking Lug Adapter with the cutting-edge EZ Drive Helical Lead and Extension.

EZ Drive Locking Lug Adapter Benefits

- Self Alignment**
Our EZ Drive Locking Lug effortlessly aligns itself, streamlining your operations and conserving valuable time and resources.
- Quick Connect**
Experience lightning-fast connectivity with our innovative locking lug feature to the EZ Drive Helical Lead and Extension.
- 2-Piece System**
Our groundbreaking 2-piece design empowers you to prep the next helical for installation seamlessly, even as you drive.

Choose the perfect fit for your needs with our EZ Drive Locking Lug Adapter, available in versatile 2-inch, 2.5-inch Hex sizes. Our adapter seamlessly integrates with our existing helical pier solutions and is available in both 6 and 12 Bolt Flange options.

EZ Drive Helical Lead and Extension

Eliminate Pier Distortion

Our cutting-edge EZ Drive Helical Lead and Extension revolutionizes the industry by eradicating the notorious hole "egging" problems and preventing top tube distortion, thanks to its state-of-the-art technological innovations.

Discover Your Choices

Available in 3 foot, 5 foot, and 7 foot lengths to suit your specific needs. Available in our 217, 203 (sch 40), and 276 (sch 80) wall, offers an unbeatable combination of cost-effectiveness and enhanced strength, ensuring you get the best value without compromising on durability.
